## Family History

Both of my parents have died. I do not have any siblings. I was living with my grandmother after my parents' death. It was hard because she struggles so much to survive. The only other relative I have is an uncle but he is also unable to care for me. Life just seemed hopeless until 2011. This is when I came to live at Ogada Children's Home. I am happy here and cannot believe that I have made it this far in school. I am in Form 4 (12th grade) at Naki Secondary School.
