## Family History

My family is very poor. Neither one of my parents are able to read and this makes it very difficult for them to find a job that can provide an income for us. My dad is not a responsible man and does not want to take care of us. I have four siblings and my oldest brother and sister are married. However, they have not been able to assist me at all. My mom tries to earn money through tilling people's gardens but she does not make very much money after working hard all day. I have not been able to attend school regularly and therefore I have to keep repeating classes. In May 2014 I came to live at Ogada Children's Home. It has been so nice attending school regularly. I am in Form 1 (9th grade) at Ongalo Secondary School.
