Family History

It is very difficult for my mom to take care of me. She does not have a job or any way of earning an income. My dad is no longer alive. I have three older siblings. There are not any other relatives who are willing and able to provide for me to go to school. I was so thankful to be able to live at Ogada Children's Home in 2011. I have had malaria several times and I would not have been able to afford treatment if I was not living there. Living at Ogada Children's Home has saved my life. I am in Form 1 (9th grade) at Gombe Kokulo Secondary School.
