## Family History

My dad died in 2012. It became very difficult for my mom to take care of me and my two sisters. She moved to the coast of Kenya, all the way across the country. She was looking for work and I was left with my grandmother. She is very weak and does not have an income to provide for me. I have two uncles who are disabled. There is no one else to take care of me. I did not know what was going to happen. Then I was given an opportunity to live at Ogada Children's Home in 2014. I am so happy! I am in my first year of high school at Mbale High School.
