Dear Sponsor,

On behalf of Pearl S. Buck Foundation-Philippines, Inc. (PSBP), I am pleased to introduce Andrey Rosos and his family. Born on October 09 2007, he is now an active 14 year old boy. They call him Andrey as his nickname.

Andrey is in good health and did not suffer any major illness this past year. He is an active 9th grader student at Gordon Heights National High School, a government school located 2 kilometers from their residence. He takes a tricycle and a jeep in going to and from his school but due to pandemic they are using modular and online learning method in their schooling. His performance in school is excellent as he is one of the honor students in his class. He dreams of becoming a Doctor someday.

As a young child, Andrey loves to play. He is fond of playing volleyball, computer games and other outdoor activities with his friends in the neighborhood. Some of his favorite hobbies are drawing, dancing and watching TV. More than just enjoying his childhood through playing and doing his recreational activities, he helps in the daily household chores as well, like cleaning the house and running errands during his spare time.

Andrey lives with his family. His father, Randy Rosos, 45 years old, works as a Construction worker and earns \$85 a month while his mother is a part-time house helper to earn extra income for the family which is usually spent on basic necessities like food, education, utilities and medicines. I would like to introduce to you the other members of the family:

The family has been in the area for more than 14 years now. The caretaker own the house and the land where their house is built on. Their house is built with G.I Sheets for the roof and cement for the floor and walls and in good condition. It has 1 bedrooms and 2 windows which provide for the ventilation of the house. They are privileged to be provided with the basic utilities like electricity and water supply. The family eats three meals a day with rice, fish and vegetables being the usual combination. They get their water from spring which they owned and use a firewood for cooking. The family uses a water-sealed type of toilet and their household garbage is disposed of through government waste disposal system.

Like any other Filipino family, the Rosos family wishes to improve their quality of life. The parents dream of having their children complete their education, enjoy good health, have a clean and orderly house and most importantly, increase their income.

PSBP, together with the community, has implemented programs in health, education and psycho-social development and protection that benefit the children, their families and communities. We hope that the Rosos family will be a part of our programs.

Andrey and his family need assistance and your sponsorship will usher in new hope and confidence in the family as they work together for a brighter future. PSBP commits to facilitate a development process for the family so they may achieve lasting improvement in their lives.

Andrey and his family look forward to communicating with you in English to share important family events in the future.

We hope that you find this new partnership meaningful and rewarding.

Very truly yours,
