HOBBIES/INTERESTS:

I have many hobbies, such as listening to music, cooking, shopping, and reading. All of them make me feel happy and relaxed. But most of all, I like drawing and reading best. I started to learn drawing when I was in primary school. Although there are many different challenges on this way, I never give up. When I am drawing, I always feel energetic and fantastic. As a result, I draw some pictures when I am tired. Moreover, reading is also my favourite thing, I like reading at weekends or holidays. When I am in the sea of books, I often forget the time. After reading, I always do some record, Chinese literature is so outstanding. So many beautiful words and sentences are well worth recording.

ANY SPECIAL TALENT:

I think I have talent in music. I am sensitive to music, I can easily remember music that I have only heard for one time, so some of my music teachers think that I am talented in music.

FUTURE GOALS AND/OR COLLEGE DEGREE THEY WANT TO LEARN:

I have dreamed about my future for many times, but now I would like to be an English teacher, because there is a saying in China, that is *Doctors and teachers never lose their jobs*. I think that is right. I hope that someday I can realize my dream and achieve my goal. I know that is difficult, but I want to face it and solve the problems.
