## Family History

I do not know my birthday. I do not know my father. I was living alone with my baby brother after our mom abandoned us. A neighbor from a nearby village found us and took us to the police station. The police brought me to live at Ogada Children's Home. My mother was found and she is in police custody with my baby brother. I have never been to school. I look forward to starting school with the next school year starting in April 2022.
