Dear Sponsor,

On behalf of Pearl S. Buck Foundation-Philippines, Inc. (PSBP), I am pleased to introduce Shanti Bueza and his family. Born on November 17, 2011, he is now an active 10 year old boy. They call him Shanti as his nickname.

Shanti is in good health and did not suffer any major illness this past year. He is an active 3rd grader student at Gordon Heights I National High School, a government school located 1 kilometer from their residence. He rides a tricycle in going to and from his school but due to pandemic they are using modular and online learning method in their schooling. He is an average student and dreams of becoming a Fire Fighter someday.

As a young child, Shanti loves to play. He is fond of playing race, hide-and-seek and other outdoor activities with his friends in the neighborhood. Some of his favorite hobbies are drawing, dancing, singing and watching TV. More than just enjoying his childhood through playing and doing his recreational activities, he helps in the daily household chores as well, like washing dishes and running errands during his spare time.

Shanti lives with his Family. His father, Isias Bueza, 38 years old, works as a Painter and earns \$200 a month while his mother also works as a Production Operator which is usually spent on basic necessities like food, education, utilities and medicines. I would like to introduce to you the other members of the family:

Name	Gender	Age	Relation to SC	Health Condition	Current Activity
Marribel Bueza	Female	34	Mother	Good Health	Production Operator
Siean Bueza	Male	8	Brother	Good Health	Student

Shaniah Bueza	Female	3	Sister	Good Health	N/A
---------------	--------	---	--------	-------------	-----

The family has been in the area for more than 7 years now. They own the house and the land where their house is built on. Their house is built with Canvas for the roof and bamboos for the floor and walls and in needs of repair. It has only one room and for multi-purpose. They are privileged to be provided with the basic utilities like electricity and water supply. The family eats three meals a day with rice, fish and vegetables being the usual combination. They get their water from piped water (gripa) which they owned and use firewood for cooking. The family uses a water-sealed type of toilet and their household garbage is disposed of through burning.

Like any other Filipino family, the Bueza family wishes to improve their quality of life. The parents dream of having their children complete their education, enjoy good health, have a clean and orderly house and most importantly, increase their income.

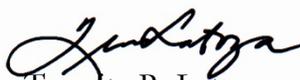

PSBP, together with the community, has implemented programs in health, education and psycho-social development and protection that benefit the children, their families and communities. We hope that the Bueza family will be a part of our programs.

Shanti and his family need assistance and your sponsorship will usher in new hope and confidence in the family as they work together for a brighter future. PSBP commits to facilitate a development process for the family so they may achieve lasting improvement in their lives.

Shanti and his mother look forward to communicating with you in English to share important family events in the future.

We hope that you find this new partnership meaningful and rewarding.

Very truly yours,

Teresita R. Latoza  
Executive Director
