Community : Manganvaca Resettlement
Nationality : Filipino

Dear Sponsor,

On behalf of Pearl S. Buck Foundation-Philippines, Inc. (PSBP), I am pleased to introduce John Terrence Javier and his family. Born on May 13, 2013, he is now an active 9 year old boy. They call him Terrence as his nickname.

Terrence is in good health and did not suffer any major illness this past year. He is an active 5th grader student at Mangan-vaca Elementary School, a government school located 1 kilometer from their residence. He rides a tricycle in going to and from his school. He is an average student and dreams of becoming a Doctor someday.

As a young child, Terrence loves to play. He is fond of playing basketball, race, hide-and-seek and other outdoor activities with his friends in the neighborhood. Some of his favorite hobby is watching television and to draw. More than just enjoying his childhood through playing and doing his recreational activities, he helps in the daily household chores as well, like washing the dishes, sweeping the backyard and running simple errand during his spare time.

Terrence lives with his both parents. His father, Elmer Uy, 39 years old, works as a Driver and earns \$200 a month to support the family while his mother stays at home to take care the needs of the family. Their earnings are usually spent on basic necessities like food, education, utilities and medicines. I would like to introduce to you the other members of the family:

Name	Gender	Age	Relation to SC	Health Condition	Current Activity
Angelica Javier	Female	31	Mother	Good Health	Housewife
James Benedict Javier	Male	8	Brother	Good Health	Student
Jia Amara Javier	Female	2	Sister	Good Health	N/A

The family has been in the area for more than 5 years now. They live with their shared house with their relatives. Their house is built G.I. sheets for the roof and cemented floor and walls and in good condition. It has 2 rooms and 2 windows which provide for the ventilation of the house. They are privileged to be provided with the basic utilities like electricity and water supply. The family eats three meals a day with rice, fish and vegetables being the usual combination. They get their water from piped water (gripa) which they owned and use gas stove for cooking. The family uses a water-sealed type of toilet and their household garbage is disposed of through government waste disposal system.

Like any other Filipino family, the Javier family wishes to improve their quality of life. The parent dream of having their children complete their education, enjoy good health, have a clean and orderly house and most importantly, increase their income.

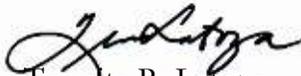

PSBP, together with the community, has implemented programs in health, education and psycho-social development and protection that benefit the children, their families and communities. We hope that the Javier family will be a part of our programs.

Terrence and his family need assistance and your sponsorship will usher in new hope and confidence in the family as they work together for a brighter future. PSBP commits to facilitate a development process for the family so they may achieve lasting improvement in their lives.

Terrence and his family look forward to communicating with you in English to share important family events in the future.

We hope that you find this new partnership meaningful and rewarding.

Very truly yours,

Teresita R. Latoza
Executive Director
