Nationality : Filipino

Dear Sponsor,

On behalf of Pearl S. Buck Foundation-Philippines, Inc. (PSBP), I am pleased to introduce Josaiah Marañon and his family. Born on October 27, 2010, he is now an active 11-year-old boy. They call him Uno as his nickname.

Uno is in good health and did not suffer any major illness this past year. He is an active 7th grader student at Camachilles National High School, a government school located 1.5 kilometers from their residence. He rides tricycle in going to and from his school. He is an average student and dreams of becoming a Software Developer someday.

As a young child, Uno loves to play. He is fond of playing computer games, race, hide-and-peek, and other outdoor activities with his friends in the neighborhood. Some of his favorite hobbies are watching television and reading. More than just enjoying his childhood through playing and doing his recreational activities, he helps in the daily household chores as well, like washing the dishes and cooking, cleaning the house and running errands during his spare time.

Uno lives with his mother because his parents separated years ago. His mother Carla Obillos, 37 years old, works as a Call Center Agent and earns \$300 a month while his father doesn't give any support for the family. His mother has also health condition which is Anemia Potassium Deficiency. Their earnings usually spent on food, utilities and education. I would like to introduce to you the other members of the family.

Name	Gender	Age	Relation to SC	Health Condition	Current Activity
Jedaiah Marañon	Male	9	Brother	Good Health	Student
Editaiah Marañon	Female	7	Sister	Skin Asthma	Student

The family has been in the area for more than 11 years now. They live together with their grandparents. Their house is built G.I. sheets for the roof and cemented floor and walls and in needs of repair. It has 2 rooms and 2 windows which provide for the ventilation of the house with separated kitchen. They are privileged to be provided with the basic utilities like electricity and water supply. The family eats three meals a day with rice, fish and vegetables being the usual combination. They get their water from piped water (gripa) which they owned and use charcoal/gas stove for cooking. The family uses a water-sealed type of toilet and their household garbage is disposed of through government waste disposal system.

Like any other Filipino family, the Marañon family wishes to improve their quality of life. The parent dream of having their children complete their education, enjoy good health, have a clean and orderly house and most importantly, increase their income.

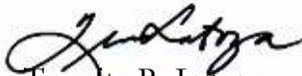

PSBP, together with the community, has implemented programs in health, education and psycho-social development and protection that benefit the children, their families and communities. We hope that the Marañon family will be a part of our programs.

Uno and his family need assistance and your sponsorship will usher in new hope and confidence in the family as they work together for a brighter future. PSBP commits to facilitate a development process for the family so they may achieve lasting improvement in their lives.

Uno and his family look forward to communicating with you in English to share important family events in the future.

We hope that you find this new partnership meaningful and rewarding.

Very truly yours,

Teresita R. Latoza
Executive Director
