Hobbies and/or interests:

Everyone has different hobbies. Some people like travelling. They think it can make them happy and learn many life skills. Others like watching films. Because they think watching films is fun. Also I have a lot of hobbies too. My favorite hobby is reading books.

First, reading books is full of fun. If you read enough books, your Chinese will get better and better. I always read books after I finish doing my homework. By reading I can learn many things.

However, some people say that reading books is out of date. This is not true. For example, I have to read something about cultures. And I think the better I read, the more I will learn.

Any special talent:

Everyone has some special talent. Some like music, while others are good at math. or enjoy physics. I have some different talent too. Although I am not good at singing, I also like singing songs. I sing when I am free, especially when I am alone. That way my voice becomes beautiful little by little. During the holidays, I will go back to my hometown and the villagers often ask me to sing for them. They enjoy my songs very much. I am very happy because I can do something for others. We are ordinary men, but we have genius more or less, We must use it to do something for the people. If everyone can use his genius to do something for others, I believe that the world will be more beautiful.

Future goals and/or college degree they want to earn:

These three years, I will do my best to improve my study skills, and enter my ideal university---Nanjing University. I want to be a person that I can contribute to society.

Paragraph about the family:

I have a big family. There are seven people in my family however we are all very happy.

My father is a worker. He isn't very handsome. He works very hard. My mother is very beautiful. My mother is a good housewife. My sister, brother and I are all students. Also my grandma and grandpa are both

farmers but they are both too old to work for their life. I have a big happy family. I like it very much.
