Hobbies and/or interests:

Among all the hobbies , I am crazy about mountain climbing most . The reason is that during the process of climbing, I was surrounded by a variety of natural sounds, for instance, those from birds, insects and gurgling streams, which make me feel both calm and relaxed. In addition, mountain climbing brings great benefits to strengthening my physical health and developing the quality of perseverance. I once climbed Mount Lu, whose breathtaking scenery and time-honored history have left a deep impression on me.

Any special talent:

Drawing is one of my special talents worthy being mentioned. For me, it is not only a kind of lifestyle, but also an inseparable part of my daily life. When I am in low moods, I can pick up a drawing pen, take out a piece of sheet and draw whatever pops into my mind onto it. Believe it or not, every time when I finish a piece of painting, my moods are greatly improved.

Future goals and/or college degree they want to earn:

My future goal is to gain admission to Nanjing Normal University and become a teacher after graduation. Although there are countless challenges along the road, I will never stop fighting until my goal is finally attained.

My father is a civil servant, who works in the field of environmental protection. My mother is a nurse, who often works till very late. My family is a harmonious one filled with warmth, love and laughter, where my parents and I show love, respect and concern to each other. In addition, smooth communication can also be found in my family despite the existence of generation gap.
