Nationality: Filipino

Dear Sponsor,

On behalf of the Pearl S. Buck Foundation-Philippines, Inc. (PSBP), I am honored to present Matthew E. Paskaly and his family. Matthew, an engaging 7-year-old, was born on March 6, 2017, and is the third child in the family. He measures 3 feet 2 inches, weighs 28 kilograms, and has a warm tan complexion. He is a baptized Roman Catholic.

Matthew currently attends Dapdap Elementary School as a second grader for the school year 2024-2025, conveniently located just 300 meters from his residence. He commutes to and from school daily. His favorite subject is Mathematics, and he actively participates in school events such as Valentine's Day. Matthew aspires to pursue a career as a pilot in the future.

In his leisure time, he enjoys a range of activities including basketball, volleyball, tumbang preso, computer games, playing with toys, piko, badminton, and hide and seek. He also displays a keen interest in drawing robots, singing OPM songs, dancing to TikTok tunes, and reading storybooks. Moreover, he willingly contributes to household responsibilities such as dishwashing, babysitting, house cleaning, and running errands.

Matthew resides with his parents. His father, George Paskaly, 46, works as a family driver and earns \$160 monthly, supporting essential needs such as education, food, utilities, and medical expenses.

I would like to introduce you to the other member of the family.

Name	Sex	Age	Relation to SC	Current Activity	Health Condition
Maricris Paskaly	Female	37	Mother	Housewife	Good Health

Renz Warren Labi	Male	17	Half-brother	Grade 9 Student	Good Health
Christian Mike Labi	Male	14	Half-brother	Grade 9 Student	Asthma

The Paskaly family has resided in their own house for over 7 years. Their home is newly constructed with cement walls, floors, and a G.I. sheet roof, and consists of 2 bedrooms and 5 windows for ventilation. The house is equipped with basic utilities such as electricity and water supply. For cooking, the family uses a gas stove and draws water from a pipe source. They also have a water-sealed toilet and responsibly dispose of waste through the government's system.

Like many Filipino families, the Paskaly family aims to support their child's education, maintain good health, keep a clean and organized home, and increase their income.

To help families in need, we have initiated programs focused on health, education, and psychosocial development in the local community. Participation in these programs is highly recommended for the Paskaly family as they offer new opportunities and a promising future.

We kindly request your sponsorship for Matthew and his family as they strive towards sustainability. Matthew and his family are eager to communicate with you in English and share significant family events in the future.

We sincerely appreciate your continuous support as it significantly enriches the lives of families like the Paskaly family. We believe that this partnership will be mutually fulfilling and advantageous for all parties involved.

Very truly yours,

Teresita R. Latoza
Executive Director
